

1. I understand that my existing meter will be replaced with a digital non-communicating meter.
2. VEC personnel will require access to this meter monthly.
3. The following fees will be assessed to my account as follows:

Multiple meters per membership will be handled as follows:

4. VEC will charge for the initial meter installation, however if at any time I decide to switch to AMI meter or change from an AMI meter to a non-communicating digital AMI meter then the following one-time fees will be assessed.

Changing out commercial account meter	\$200.00 fee per meter
---------------------------------------	------------------------

- VEC will not receive automatic outage notification or restoration verification.
- Longer power restoration times and reduced reliability may occur as a result of opting out.
- VEC and I will not have interval data available for increased efficiency efforts and usage patterns.
- I will not have the ability to view usage information on the VEC portal.
- Notifications of high electrical usage will not be available.
- Rebates, discounts and incentive offers for voluntary load management participation will not be available.
